

# OMRON

Programmable Terminal

# NP Series

## Easy Setup with the Low-cost, Compact NP Series

# NP

# Simpler and More Versatile. OMRON's

Easier connection to OMRON PLCs and Temperature Controllers, plus high-speed transfer of image data via USB.

## CP1L/H Programming Console Function Provided as Standard Feature

No need to carry a computer to the site to perform simple maintenance work.

EJ1

## Serial

RS-232C  
RS-485  
RS-422A

CP1L

## Compoway/F

## Connect directly to an EJ1 Temperature Controller via RS-485

Template screens can be used immediately.

## USB

## Setting

PC

Screen data can be transferred with a USB memory stick, eliminating the need to carry a computer to the site.

USB cable

USB memory stick

## Improved Efficiency and Speed from Set Up to Operation!

What do you need in a NP Series? Display visibility, information capacity, low costs? OMRON provides all of these and goes further to reduce the TCO, including operating efficiency, by enabling connection of various control devices, easy design work, and the smoothest possible connections.

Note : The above illustration is a conceptual diagram only. For information on connecting the PT, refer to the user manuals.

# Compact NP Series Connect!

## Easy Assembly

### Compact Operating Section

**Compact design reduces the mounting work.**

At 130.1×104.8mm (NP3:W×H), this NP Series is small enough to be mounted in the same space as a handful of switches, and it requires only one mounting hole in the control panel. You get less work and a less crowded operating section.

### Install in Most Environments

**IP65 water resistance.**

The front of the panel has IP65 water resistance, allowing the NP Series to be used in environments where mist or splashing cooling water is present.

Note: The unit may not be able to be used in locations with long-term exposure to oil and water. For details on the installation environment, refer to the user manual.

## Hardware

### Compact, Yet Plenty of Information

**The NP3 can display the same amount of information as a 5-inch NP Series.**

Using a 3.8-inch QVGA LCD, this NP3 is able to clearly display 8 grayscale levels in monochrome. The advanced display capabilities equivalent to those of a 5-inch NP Series improve the efficiency of onsite operations.

## Easy Connection, Easy Wiring

### Reduce Connection Design and Onsite Work

**Excellent matching with OMRON control devices.**

The NP Series provides an OMRON CP1L/CP1H PLC Programming Console function, and connects to OMRON EJ1 Temperature Controllers. The NP Series can be operated immediately using the sample screens included with the NP-Designer (Support Software).

### Use PLCs from Other Companies

**Multivendor support is provided for major global manufacturers.**

Including OMRON and Mitsubishi, support is also provided for PLCs from major global manufacturers. The NP Series can be used with your current PLC without redesigning the system. It doesn't matter if you use a different PLC manufacturer for each project.

## Connectivity

### Reduced Wiring Work

**Wiring with a single cable.**

The NP Series is equipped with both a RS-232 port and a switchable RS-422A/485 port so you can connect to a PLC or Temperature Controller with a single cable. You get reduced wiring work and easier maintenance.

※ NP3-MQ000B, NP3-MQ000, NP3-MQ001B, NP3-MQ001

# Compact design and easy setup! Co

## Easy to Use

### Use a Computer USB Port Transfer screens at high speed.

The USB interface lets you take full advantage of the computer software environment. Transfer screens created on the computer to the NP Series at high speeds. Or use a USB memory stick to transfer screen data without bringing a computer on-site.

### Easier On-site Operation

Models are available with either of two function key layouts.

Models with two different function key layouts are available to meet the needs of your application design. The NP Series case is available in two different colors: black or silver.

## Operation

### Use the Same Equipment Worldwide Multi-language Support.

The NP Series, screens, and Support Software are supported in English, Chinese, many European languages, and Japanese. Also, the NP Series meets international standards so it can be exported or imported across country borders easily.

## Example of Applications That Provide Added Value to Equipment

### Packing Machines

Simplified design and processing.  
Operated by touching the screen.

- Design** Easy screen design by using NP-Designer.
- Assembly** No panel processing and wiring for lamp switches needed.
- Operation** Operation and monitoring status can now be achieved with one NP Series. No need for additional processing for additions or modifications.

### Food Processing Equipment

Direct connection to Temperature Controllers.  
Operate the NP Series even with wet hands.

- Design** Enhanced design with silver case that matches stainless-steel equipment.
- Assembly** Connect directly to EJ1 to reduce wiring.
- Operation** IP65 protection allows application in wet environments.

# Compatible with your current PLC.

(Note 1) Because of the structure of the analog touch panel, touch points may shift by over time use or the influence of temperature and humidity. Please periodically perform "Calibrate" in the NP System Menu.

## General Specifications

Item	Specifications
Rated power supply voltage	24 VDC
Allowable voltage range	21.6 to 27.6 VDC (24 VDC -10% to +15%)
Allowable input power interruption time	No restriction
Power consumption	12W max
Ambient operating temperature	0 to 50°C (See notes 1 and 2)
Storage temperature	-20 to +60°C
Ambient operating humidity	35 to 85%RH with no condensation (0 to 40°C) (See notes 2.) 35 to 50%RH with no condensation (40 to 50°C) (See notes 2.)
Operating environment	No corrosive gases
Noise immunity	Conforms to IEC61000-4-4, 2 KV (power lines)
Vibration resistance (during operation)	5 to 9 Hz with 3.1 mm amplitude and 9 to 150 Hz with 9.8 m/s <sup>2</sup> acceleration for 30 min in each of X, Y, and Z directions
Shock resistance (during operation)	147 m/s <sup>2</sup> 3 times in each of X, Y, and Z directions
Weight	NP5 : 900g max NP3 : 500 g max
Enclosure rating	Front panel: IP65F oil proof (See note 3)
Battery life	5 years (at 25°C)
International standards	EC Directives, cULus (UL508)

(Note 1) When a STN LCD display device is used, the display quality will decline (e.g., the contrast ratio will be reduced) if the temperature exceeds 40°C. Also, when the temperature drops, the response speed is lowered due to characteristics of liquid crystals.

(Note 2) Operate the PT within the temperature and humidity ranges shown in the following diagram

(Note 3) May not be applicable in locations with long-term exposure to water or oil.
